

Power Saver Rewards General Awareness Call

Script 8

Hi, my name is _____ calling from _____.

We're excited to tell you about a program called Power Saver Rewards that gives you a credit on your energy bill when you reduce energy use during a Flex Alert AND helps the [insert name of your town/community/region] community avoid a power outage.

With Power Saver Rewards, less is more! The less energy you use during a Flex Alert, the more you get back on your energy bill credit.

Flex Alerts are usually issued from 4:00 to 9:00 p.m. as people arrive home from work or school and there's not enough energy supply to match demand.

To register or learn more, go to PowerSaverRewards.org today. That's PowerSaverRewards.org.

Thank you and have a great day!
